

Aniebiet Edet

Full stack Developer

Profile

I am a qualified and professional web developer with three years of experience in database administration and website design. Strong creative and analytical skills. Team player with an eye for detail.

Work Experience

Landmark University Elite Group / 2023-present

Lead Person/ fullstack developer

I am a Computer Science student at Landmark University, graduating with first-class honours. I am eager to gain proficiency in practical skills, not just theoretical knowledge, I encourage all student to learn and own a skill, exposing students to different frameworks by building full stack projects using relevant technologies.

Udemy 2023-2024

Student

Full stack developer, Learning and Mastering technologies relevant to building web application, designs, database managements.

Projects

• Dan D. Repairs

Reactjs, Redux, Nodejs, express, mongoose, MongoDB

I designed a phone repair management system for shops, this help to track customers needs and assign each device to a particular employee with different privileges.

• Food-delivery App

Reactjs, Nodejs, express, mongodb, mongoose,

Am currently designing and building a food-delivery web application, this application shows the assorted food available to the customers, also enabling the customers to order food, saving it to their cart.

• Academia

Reactjs, Nodejs, express, mongodb, mongoose,

E-learning Platform with list of video courses, to meet different fields of digital skills and tech categories.
