

Aniebiet Edet

Skilled Full Stack Developer with a broad set of competencies in both front-end and back-end web development. A solutions-oriented professional with three years of experience in the technology sector.

Work Experience

Tomato Food Ordering Web App

I built a food ordering app for ordering food, once a meal is ordered, the user can keep track of the progress, I also integrated Stripe(demo), this enable payments to be done from the app.

Functionalities such as Signup, Login, Server-side rendering so as to authentication and validation is done.

Technology used - ReactJS, NodeJS, ExpressJS, MongoDB

Live Link - <https://airbnb-mini-project.vercel.app/>

E-commerce Web App

I built an e-commerce web app with responsive design, using Context Api, React-router-dom for routing and conditional rendering of components

Technology used - ReactJS

Github Link - <https://github.com/Ahnibaba/E-commerce-app>

Live Link - <https://e-commerce-app-sand-chi.vercel.app/>

Mini Chat App

I built a mini chatting app in order to explore the concept of socket.io, which allows for real time response from the server without having to request from the server.

Technology used - ReactJS, NodeJS, SocketIO, ExpressJS, MongoDB, Mongoose, etc.

[Portfolio Website](#)

Skills

Programming Languages

C++, C#, Javascript, MongoDB, HTML, CSS.

Libraries and Frameworks

ReactJS, NodeJs, Socket.io, ExpressJs, Bootstrap, Zustand, Redux, Mongoose.

Tools and Platforms

Git, Github, Postman, Visual Studio Code, Code block, Netbeans, MongoDB Compass, Vercel, Render, Docker.

Languages

- English (Fluent)
- Ibibio(Native)

Certification/Short Courses

- [The Complete 2024 Web Development Bootcamp – Udemy.](#)
- Complete NodeJS Developer(GraphQL, MongoDB, +more)

Interests

Software Engineering, Full Stack Development, Cloud Computing, System Analysis and Design, Python Programming.

Educational Background

Landmark University

Department of Computer Science
2022 - 2026

CGPA - 4.87

Transcript - [Unofficial Transcript](#)
